
Basic SIP Phone

UTT-700P Datasheet

The model UTT-700P IP Phone addresses that segment of the market that requires an economical entry-level IP desk device while taking advantage of the cost savings of a converged network infrastructure. UTT-700P is a single line SIP phone and is designed for users requiring access to basic telephony and messaging services. Working behind the SIP server or IP PBX, this IP phone is an ideal 'point of sale' phone for the hospitality market as hotel bathroom phone or lobby phone.
